Selection of Hosts / Family:

We know that many people may be apprehensive about living in the home of a “complete stranger.”

To put your mind at ease...

Hosts & families are very carefully selected; all homes are carefully inspected.

All hosts are well educated.

We do not work with people who "rent rooms" or those who ask to be “put on a list.”

These are not home exchange programs.

In order for these type of programs to work well, a number of people are involved in the planning of the stay. Each region has a **Local and/or Regional Organizer** who visits potential hosts, evaluates the home and who is the one who matches the participant with the appropriate host.

The Organizer is always available to solve problems when the participant is in the program.

If you are not happy with the homestay, it will be changed.
